KYLE BRUMM

Frontend engineer with over 10 years of experience with a passion for building intuitive and clean user interfaces. Thrives being at the intersection of engineering and design to help bring delightful user experiences to life.

EXPERIENCE

Shopify

Senior Frontend Engineer
Dec 2021 - Present

- Led a comprehensive redesign of the Admin UI “Content” section, improving merchant customization and user experience
- Collaborate cross-functionally to develop performant and intuitive solutions to complex technical challenges
- Provide strategic communication with senior leadership to ensure project alignment and timely delivery

Simple Focus

Lead Developer
Aug 2017 - Dec 2021

- Built headless websites and apps using Next.js/Gatsby, integrating with content platforms like Prismic and Strapi
- Created scalable design systems and component libraries with technologies like React and Storybook
- Developed custom themes and plugins for Craft CMS and WordPress to extend platform capabilities
- Implemented new hosting and deployment systems to improve developer productivity and infrastructure resilience

Happy Medium

Web Developer
Jan 2015 – Jan 2016

- Collaborated closely with account coordinators and designers to transform PSD designs into pixel-perfect WordPress websites
- Developed custom automation scripts and internal tooling to optimize development workflows and improve productivity
- Managed the development team’s workload by organizing and assigning Github issues

EDUCATION

Iowa State University

Bachelor of Fine Arts in Design

Kirkwood Comm. College

Associate of Science
